

# New for 2017-18

## Get school and district text alerts when you need them, wherever you are!

Stoughton Area School District is proud to announce “text messages” as an additional means of communication. Our goal is to consistently provide clear, accurate and timely information to our families.

### How Opt-In for Text Message Notifications

1. Log into your [Infinite Campus Parent Portal Account](#) and open Contact Preferences under the User Account menu. If you do not have an account, please email [katy.oshea@stoughton.k12.wi.us](mailto:katy.oshea@stoughton.k12.wi.us)
2. Check the box **Text SMS** for any phone you want set up to receive text messages. Select all notification types you want included.

### On your phone:

1. Text the word **START** to 91201.
2. You will receive a Shoutpoint message.
3. You should text **YES** to confirm that you want text messages from the district.

If you text the word START to 91201 and do not receive a response, you must call your carrier to see if Premium Messaging (short code) is blocked. If Premium Messaging is blocked, ask your carrier to unblock it so you can receive texts from the district.

**Please be aware that additional charges may apply to text messages. Check with your wireless carrier. SASD is not responsible for these charges.**
