## LOCAL ARTISANS/METAL FABRICATORS NEEDED FOR WELCOME SIGN PROJECT

Glasgow Tourism Business Improvement District is looking for a proposal to design and produce a metal image/lettering to affix to the large rocks that are placed in concrete adjacent to Highway Two on the east and west side of Glasgow.

Interested artists/metal fabricators are asked to submit two or three designs using the new Glasgow logo and incorporating the words "Welcome" and "Glasgow". Designs along with suggested materials and total cost for both signs (design, materials, and installation) should be mailed to Glasgow Chamber, PO Box 832, Glasgow, Montana 59230 or dropped off at the Glasgow Chamber Office by noon on March 2, 2018. The signs must be installed by May 1, 2018.

Requirements: Must be a permanent/low maintenance material affixed to the rocks

Must be easily visible – we are looking to replace the metal on the west end to be something that stands out more and is readable from the highway

Sign dimensions must be included in the bid – measurements and photos of the rocks can be obtained by e-mailing [chamber@nemont.net](mailto:chamber@nemont.net)

The TBID board reserves the right to select the best suited design and will consider qualifications, previous projects, ability to meet the timeline, and price.
