

The Challenge!

Every early care and education program is charged with providing a safe, loving, caring, and educational environment for young children. What cannot be overlooked are the leadership and management skills necessary to bring fiscal and operational soundness that allows success and program continuation.

The Cost Quality and Outcomes Study stated that high quality early care and education centers need well trained administrative and management staff.

The Early Learning Leadership course provides both an introduction to and review of the management tools necessary to run a successful center.

The Course

...incorporates the feedback received from persons who have extensive experience in child care center administration, and gives consideration to those who have limited leadership and management background. It presents:

- up to date administration and management theory;
- provides the latest information regarding federal laws;
- elaborates on and helps develop the skills needed for sound fiscal and staff management;

- addresses why systems are important;
- discusses curriculum expectations, risk management and how to write strategic and business plans;
- emphasizes the importance for administrators to be leaders not only at their centers but within their community.

The Instructors

Practitioners who have become experts and who have a minimum of 15 years experience in administration and child care are the instructors of the course. They have “real world” experience which is a vital addition to the degrees they hold. They are able to say: “Been there—I understand your dilemma and problems” and suggest solutions.

Our Vision

Our vision is to help you be part of a new generation of leaders committed to high quality early care and education. We want you to make your program the best that it can be. We want you to lead and energize your staff and to be comfortable implementing your fiscal and management policies while keeping staff focused on your program’s mission and goals.

Take a minute and review your current leadership style and training.

- Do you need new tools and skills to deal with today’s ever changing challenges?
- What do you need to make your program achieve its highest quality?
- Do you need an opportunity to sit back and evaluate your successes and problems?

We understand the demands that you encounter daily. The Early Learning Leadership course is 45 hours of time spent catering to these needs.

The Credential

Upon successful completion of the course, each participant receives the Early Learning Leadership Credential.

Expand Your Skills!

Contact the Early Learning Leadership Institute, now, for information about how to have a Leadership Credential class in your area. Class sizes are limited to twenty-two students. A minimum of 12 students are required.
