

Invest in success and build your leadership skills!

Thank you for an amazing course.

Had I taken this course prior to opening our center, my life would have been more stress free and my center more solid.

The course is very well organized and dynamic touching various concrete aspects of owning and operating a child care facility.

This class has brought a 'renewal' of sorts to me and in regard to my position; I am finding myself with a wealth of thoughts and ideas to take back with me.

This class has been an awakening and I have been encouraged.

You've really made me think about childcare as a whole, and what is going on around me.

I will use the skills taught—forever.

The course balances academic discussion with practical examples.

Having the opportunity to grow and learn alongside other in the same position was priceless.
