

44th Annual

Catalog

Samples

Information

Night

November 9, 2016

sponsored by the
Rochester New York Chapter
Construction Specifications Institute

Welcome!

Rochester Chapter CSI would like to welcome you to the 44th Annual CSI Night. Your interest and use of the exhibitors' products have helped to make this possible. Throughout the year, please use this book as an aid in selecting products.

Enjoy the show, and we hope to see you all again next year!

Steven V. Rebholz, AIA, CSI
CSI Night Chairman
SWBR Architects & Engineers
387 East Main Street
Rochester, NY 14604-2107
585-232-8300 FAX 585-232-9221
srebholz@swbr.com

**For information on CSI
(Construction Specification Institute),
log on to the CSI national web site at www.csinet.org**

**For membership information,
contact the Rochester Chapter Membership Chair,
Paul Mahoney at 585-454-1060 or PMahoney@EnvoyEnvironmental.com**

Our thanks to:

Guest Registration	Kathy Spencer SWBR Architects & Engineers
Guest Coordinator	Erin Shannon LECESSE Construction
Exhibitor Registration & Show Assistant	Lisa Morgia SWBR Architects & Engineers
Printing	Victor Cruz SWBR Reprographics

*Special thanks to B & L Wholesale Supply
for Sponsoring today's seminar*

SCOTT GROVE

Green Grove Design
4494 Kear Road
Canandaigua, NY 14424

Email: scott@scottgrove.com

Website: www.scottgrove.com

Scott Grove, sculptor and multidisciplinary craftsman, is a steward of Western New York's historical buildings. He has inspected, restored, reconstructed, and reproduced simple and complex architectural ornamentation from the 18th, 19th and 20th centuries on buildings including The Powers Building, Jonathan Child House, George Eastman Theater, and many more. His work seamlessly replicates existing materials using composites, plaster, wood, and other high tech materials to create replacements that are lightweight, fire retardant, non-corrosive, and long lasting.

Grove has a particular expertise with these giant antiques; understanding the restrictions placed upon renovation and repair, he matches the needs of the building to the budget of the owners.

Specializing in reproducing existing, no-longer-available ornamentation, components, and profiles:

- Inspection and consultation
- Fiberglass casting and layup
- Structural epoxy consolidation
- Onsite mold making
- Plasterwork
- Custom woodworking

Elite Crete Systems, Inc. is a world leading developer and manufacturer of specialty high-performance flooring products for:

- Decorative/Architectural Concrete Systems and Finishes
- Concrete Surface Repair and Protection
- Custom/Seamless Fluid Applied [Commercial Flooring](#)
- Industrial High-Wear Protective Floor Coatings

Elite Crete Systems brand is driven to provide solutions, performance and ignite the imagination of architects and property owners. Building on its legacy of innovative, market-leading cement and resinous technology, the company manufactures and distributes high performance concrete flooring surfaces and finishes for a multitude of uses. The essence of the brand is communicated through thousands of professional contractors who depend on Elite Crete Systems products to provide them with the very best while they redefine what is possible.

As one of the largest and well known specialty concrete floor manufacturers, we are proud to boast over 100 specification and technical support offices and more than 8,000 trained professionals worldwide to assist architects, project managers, facility managers and property owners with projects.

Some examples include the following: retail, hospitality, educational, office buildings, hotels, shopping malls, auto dealerships and restaurants, manufacturing facilities, warehouses, airplane hangars, service bays, food service/manufacturing facilities, cold storage areas, chemical containment areas, parking decks, medical/veterinarian, municipal buildings, pool decks and a multitude of residential uses.

HUBER ENGINEERED WOODS, AdvanTech
Zip System – Sheathing and Tape

ADVANTECH FLOORING AND SHEATHING

Build with AdvanTech® flooring for award-winning performance you can rely on. Specifically engineered to combine industry-leading strength, superior moisture resistance and installation

ease, AdvanTech flooring is the FLAT OUT BEST™ for a quiet, stiff floor.

Total performance in one panel:

- High density engineered wood for industry leading strength and stiffness
- Advanced moisture resistant resin technology applied through the panel
- Superb fastener-holding power helps keep floors flat and quiet
- Patented fastening guide for easier installation
- Precisely milled and extremely durable tongue and groove profile for easy installation
- Ranked #1 in quality every year for more than a decade
- Backed by the reputation of Huber Engineered Woods

With an industry-leading warranty and unmatched 500-day no-sanding guarantee, AdvanTech® flooring is the flooring panel that more builders trust. It's engineered for superior strength, moisture resistance and quality so you can build the quiet, stiff floor your homeowners demand. Build with the award-winning industry-leader and rest assured you'll get the most from your floors and everything you build on top of them.

ZIP SYSTEM SHEATHING & TAPE

It's a one-of-a-kind structural roof and wall system with a built-in energy-efficient barrier that keeps moisture out and reduces air leakage, while still allowing panels to properly dry. Plus, it installs in two easy steps: 1. Install the panels, 2. Tape the seams. Fewer steps result in 40% faster installation when compared to traditional housewrap and felt.

KEY FEATURES AND COMPONENTS OF ZIP SYSTEM® SHEATHING AND TAPE

- 1 High quality structural sheathing panel made of engineered wood delivers strength and durability
- 2 Built-in vapor permeable water-resistive barrier eliminates the hassles of house wrap and felt. Engineered for enhanced drainage of bulk water and optimal permeability to allow water vapor to pass through and promote drying
- 3 A continuous, rigid air barrier decreases unwanted air leakage for greater energy efficiency
- 4 ZIP System™ tape with a specially engineered, high performance acrylic adhesive bonds with ZIP System® panels for a permanent protective seal

ZIP SYSTEM R-SHEATHING

For installation convenience and exceptional, long-term performance, the all-in-one ZIP System® R-Sheathing panel provides a new approach to sealing and insulating the building envelope. One panel delivers thermal, air and moisture resistance, while providing excellent strength and durability.

- 1 **Continuous Foam Insulation Provides Higher R-value**
 - Increases thermal performance while eliminating Thermal bridging
 - Designed to meet new energy codes

2 Engineered Wood Provides Structure and Durability

- Nailable wood base for trim and accessories
- Provides security against easy home intrusion

3 Built-In Water Resistive Barrier Eliminates Housewrap and Felt

- Eliminates costly rework
- Instant rough dry-in with 180-day exposure guarantee
- Superior drainage efficiency that channels moisture downward off the panel face Permeable overlay promotes panel drying

4 Continuous Air Barrier Creates Greater Energy Efficiency

- Decreases unwanted air leakage into and out of a building
- Helps protect the R-value of insulation, reducing heating and cooling costs

5 ZIP System™ Tape Permanently Seals All Panel Seams

- Acrylic formulation provides superior adhesion
- Rigorously tested for long-lasting performance
- Easily applied with tape gun and accessories

SCOTT GROVE
Green Grove Design
4494 Kear Road
Canandaigua, NY 14424

Email: scott@scottgrove.com

Website: www.scottgrove.com

Scott Grove, sculptor and multidisciplinary craftsman, is a steward of Western New York's historical buildings. He has inspected, restored, reconstructed, and reproduced simple and complex architectural ornamentation from the 18th, 19th and 20th centuries on buildings including The Powers Building, Jonathan Child House, George Eastman Theater, and many more. His work seamlessly replicates existing materials using composites, plaster, wood, and other high tech materials to create replacements that are lightweight, fire retardant, non-corrosive, and long lasting.

Grove has a particular expertise with these giant antiques; understanding the restrictions placed upon renovation and repair, he matches the needs of the building to the budget of the owners.

Specializing in reproducing existing, no-longer-available ornamentation, components, and profiles:

- Architectural Woodwork
- Plastics Fabrication
- Wood and Plastics Restoration and Cleaning

HUBER ENGINEERED WOODS, Zip System – Sheathing and Tape

It's a one-of-a-kind structural roof and wall system with a built-in energy-efficient barrier that keeps moisture out and reduces air leakage, while still allowing panels to properly dry. Plus, it installs in two easy steps: 1. Install the panels, 2. Tape the seams. Fewer steps result in 40% faster installation when compared to traditional housewrap and felt.

Key Features and Components of ZIP System® Sheathing and Tape

- 1** High quality structural sheathing panel made of engineered wood delivers strength and durability.
- 2** Built-in vapor permeable water-resistive barrier eliminates the hassles of house wrap and felt. Engineered for enhanced drainage of bulk water and optimal permeability to allow water vapor to pass through and promote drying.
- 3** A continuous, rigid air barrier decreases unwanted air leakage for greater energy efficiency.
- 4** ZIP System™ tape with a specially engineered, high performance acrylic adhesive bonds with ZIP System® panels for a permanent protective seal.

5-in-1 System with Layers of Innovation

For installation convenience and exceptional, long-term performance, the all-in-one ZIP System® R-Sheathing panel provides a new approach to sealing and insulating the building envelope. One panel delivers thermal, air and moisture resistance, while providing excellent strength and durability.

- 1 Continuous Foam Insulation Provides Higher R-value**
 - Increases thermal performance while eliminating thermal bridging
 - Designed to meet new energy codes
- 2 Engineered Wood Provides Structure and Durability**
 - Nailable wood base for trim and accessories
 - Provides security against easy home intrusion
- 3 Built-In Water Resistive Barrier Eliminates Housewrap and Felt**
 - Eliminates costly rework
 - Instant rough dry-in with 180-day exposure guarantee
 - Superior drainage efficiency that channels moisture downward off the panel face
 - Permeable overlay promotes panel drying
- 4 Continuous Air Barrier Creates Greater Energy Efficiency**
 - Decreases unwanted air leakage into and out of a building
 - Helps protect the R-value of insulation, reducing heating and cooling costs
- 5 ZIP System™ Tape Permanently Seals All Panel Seams**
 - Acrylic formulation provides superior adhesion
 - Rigorously tested for long-lasting performance
 - Easily applied with tape gun and accessories

HUBER ENGINEERED WOODS, Zip System – Liquid Flash

ZIP System™ Liquid Flash is a liquid-applied flashing membrane made of STPE (silyl-terminated-polyether) technology. This high performance formulation combines the durability of silicones with the toughness of urethanes

- 1 Optimal Viscosity**
Flows easily to seal irregular shapes and surfaces.
- 2 Quick Cure Time**
Immediately weather resistant and tack free in as little as 20–40 minutes depending on conditions. Target thickness achieved when substrate is no longer visible.
- 3 Weather and UV Resistant**
Warranted for up to 180 days of extreme weather and UV exposure.
- 4 Proper Adhesion to a Wide Range of Surfaces**
Bonds to wood, concrete, masonry, architectural metals, glass, PVC, FRP, EPDM and most other building materials.

GUARDIAN INDUSTRIES

50 Forge Avenue
Geneva, NY 14456

Website: www.sunguardglass.com

Email: escott@guardian.com

Guardian Industries is a diversified global manufacturing company with leading positions in float glass, low-e coatings and fabricated glass products. Our local float glass production facility is located in Geneva, New York.

Guardian SunGuard® Advanced Architectural Glass helps architects create striking building designs using natural light and color – while significantly reducing energy costs.

SunGuard Advanced Architectural Glass is all about "Building with Light" and offers you the most comprehensive range of coatings, colors and design solutions in the industry, while still meeting complex energy and performance requirements.

Guardian Industries has developed easy-to-use, advanced software for glass and glazing system analysis. These online tools offer a comprehensive suite of engineering and analytical reports that demonstrate the advantages of high performance glass in building facades. Please ask about gaining access to our **Glass Performance Calculator, Building Energy Calculator, BIM Generator and Glass Visualizer.**

The Guardian **BIM Generator** provides thermal and optical performances of the project specific custom IG makeups. It is highly detailed content with visibility settings to control the level of detailing depending on the scale of the view. The content is created for Revit 2013 to take advantage of the material analytics within Revit for energy simulations.

GuardianInGlass.com offers a comprehensive line of interior glass products, organized by color, performance and texture. The technology behind Guardian InGlass gives you design capabilities that ordinary glass doesn't – from scratch resistance and light control to shower protection and security.

TUBELITE, Storefront, entrances, curtain wall

Our high-quality products, timely delivery and personal service have earned us a strong reputation for dependability. Glazing contractors rely on us as their partner for commercial and institutional buildings' storefront, entrance, curtainwall, and daylight control systems.

We're proud to be known as one of the industry's premier architectural aluminum manufacturers specializing in pre-engineered aluminum framing systems. Each of our products is manufactured to meet the project's aesthetic, performance and environmental goals. They also are manufactured for easy fabrication and installation to meet timeline and budget constraints

ELITE CRETE SYSTEMS
1061 Transport Drive
Valparaiso, Indiana 46383

Website: www.elitecrete.com

Email: rino.baliva@elitecrete.com

Elite Crete Systems, Inc. is a world leading developer and manufacturer of specialty high-performance flooring products for:

- Decorative/Architectural Concrete Systems and Finishes
- Concrete Surface Repair and Protection
- Custom/Seamless Fluid Applied [Commercial Flooring](#)
- Industrial High-Wear Protective Floor Coatings

Elite Crete Systems brand is driven to provide solutions, performance and ignite the imagination of architects and property owners. Building on its legacy of innovative, market-leading cement and resinous technology, the company manufactures and distributes high performance concrete flooring surfaces and finishes for a multitude of uses. The essence of the brand is communicated through thousands of professional contractors who depend on Elite Crete Systems products to provide them with the very best while they redefine what is possible.

As one of the largest and well known specialty concrete floor manufacturers, we are proud to boast over 100 specification and technical support offices and more than 8,000 trained professionals worldwide to assist architects, project managers, facility managers and property owners with projects.

Some examples include the following: retail, hospitality, educational, office buildings, hotels, shopping malls, auto dealerships and restaurants, manufacturing facilities, warehouses, airplane hangars, service bays, food service/manufacturing facilities, cold storage areas, chemical containment areas, parking decks, medical/veterinarian,

municipal buildings, pool decks and a multitude of residential uses.

SCOTT GROVE

Green Grove Design
4494 Kear Road
Canandaigua, NY 14424

Email: scott@scottgrove.com

Website: www.scottgrove.com

Scott Grove, sculptor and multidisciplinary craftsman, is a steward of Western New York's historical buildings. He has inspected, restored, reconstructed, and reproduced simple and complex architectural ornamentation from the 18th, 19th and 20th centuries on buildings including The Powers Building, Jonathan Child House, George Eastman Theater, and many more. His work seamlessly replicates existing materials using composites, plaster, wood, and other high tech materials to create replacements that are lightweight, fire retardant, non-corrosive, and long lasting.

Grove has a particular expertise with these giant antiques; understanding the restrictions placed upon renovation and repair, he matches the needs of the building to the budget of the owners.

Specializing in reproducing existing, no-longer-available ornamentation, components, and profiles:

- Plaster Restoration
- Finishes

STONHARD, Resinous floors and wall systems

94 years of experience, solving flooring problems. Punishing chemical assault, unremitting abrasion and impact, wet conditions, thermal shock — our proven performance systems are designed for the toughest environments. They are also designed with the planner in mind, offering infinite design possibilities and the ability to customize and optimize colors, patterns and finishes. Stonhard's seamless floor systems are safe, with textured surfaces that protect against slip and fall accidents. Maintenance is minimal because seamless means cleaner. Stonhard takes full responsibility for customer satisfaction, from raw materials to installed systems. Stonhard provides comprehensive support, whether it's a single location or part of a multi-national network. Unparalleled products, easy maintenance, seamless, customized designs and our reliable single source warranty on it all.

R.L. KISTLER, INC.
300 Mile Crossing Boulevard
Rochester, NY 14624

Web Site: www.rlkistler.com

Email: magnello@rlkistler.com

R.L. KISTLER, INC. is headquartered in Rochester, NY and is a leading Sales Engineering company providing HVAC Solutions for both new and existing construction for the Industrial, Commercial and Institutional Sector. The company's founder, Robert L. Kistler, recognized the need for qualified sales engineers to partner with clients to achieve the best possible results and provide high quality products and service. In competitive markets the focus tends to fall on price alone, often with inferior results and ultimately costly outcomes. Every member of the Kistler team focuses on getting the job done right, exceeding our customer's expectations, and providing personal service and support.

Since 1968 our product base has expanded to include Power Conditioning, Emergency Generators and Green Sustainable Energy related products. In the ever changing technological environment new solutions to old problems becomes a way of life. Our company enjoys meeting the challenges present in today's construction environment. With our clients such as Corning, Paychex, Frontier Communications, Eastman Kodak, Johnson & Johnson, Xerox, University of Rochester, Strong Memorial Hospital, R.I.T., Roswell Cancer Center, Seneca Gaming Casino, Verizon, Buffalo State College and others we have had the opportunity to find creative solutions, meet challenges head on, and face the possibilities of the future today. Visit us at: www.RLKistler.com

MITSUBISHI ELECTRIC US COOLING & HEATING DIVISION (Mitsubishi Electric) is headquartered in Suwanee, Ga., and is a leading marketer of ductless and variable refrigerant flow (VRF) technology in North America, Latin America, the Caribbean and Bermuda. In 1982, Mitsubishi Electric introduced its state-of-the-art, ductless air conditioners and heat pumps in North America. The product line was expanded with VRF zoning heat pump systems using INVERTER-compressor technology to offer simultaneous cooling and heating. Mitsubishi Electric also offers compressors and a full line of air-conditioning accessories.
