9:30 a.m. **Beverage Break - *Centennial Foyer***

10:00 a.m. **Case Studies from WSSHE Members on Everyday Experiences - *Stehekin Room***

11:00 a.m. **Buffet Lunch & Door Prize Drawing - *Centennial Ballroom***

12:00 noon **Symposium Adjourns**

WASHINGTON STATE SOCIETY FOR HEALTHCARE ENGINEERING

Spring Symposium
April 19 - April 21, 2017

"Regulatory Readiness - Seize the Opportunity!"

**Campbell's Resort
Chelan, Washington**

Welcome and Introduction
Keith Geary, 2017 WSSHE State President
Mason General Hospital
Shelton, Washington

Keynote NFPA 99/101 Transition to Current Editions
Jonathan Hart, P.E.
NFPA
Stowe, Vermont

With the long anticipated adoption of the 2012 editions of NFPA 101 and NFPA 99 occurring last year, there are changes to the requirement that health care facilities must comply with. This session will define exactly what CMS adopted and review key provisions from the 2012 editions of both codes.

Demystifying Power Tap Use in Healthcare Setting
John Garbarino
Leviton Manufacturing
Spokane, Washington

There are many Codes, Standards, and organizations that define and influence the use of power strips in healthcare facilities. Learn about the different classifications of power strips, and their appropriate use throughout the facility.

Medical Gas
Carsten Lunde CMGV, RRT, ASSE 6050
Instructor, ASSE 6030 Verifier
Newark, California

This presentation highlights the changes for medical gas and vacuum source equipment and piping distribution systems from 1999 NFPA 99 standard to the current CMS adopted 2012 NFPA 99 requirement.

Medical Equipment Management Plan
Jeanette Thielen
Harborview Medical Center
Seattle, Washington

Jeannette will talk about the practical application and requirements of a Clinical Engineering equipment management program. She will go over the code changes and the implementation; both alternative strategies, and when manufacturer's recommendations are required.

Managing Maintenance Records through Regulatory Change in the Digital Age
Marnie Boomer, Providence Centralia
Centralia, Washington

Marnie will present an overview of the impacts that the recent regulatory changes have on Facility Services record keeping. The discussion will also include examples of ways in which Facility Service Departments across Washington use digital means to manage records, a summary of the benefits and vulnerabilities, and successes using digital formats rather than paper during a jurisdictional review.

Case Study - Behavioral Health Issues
Brad Jones,
Comprehensive Healthcare
Yakima, Washington
Matt Reed, BORArchitecture
Yakima, Washington

Lessons learned from the design and operations of facilities and spaces for Behavioral /Mental Healthcare providers.

Case Studies from WSSHE Members on Everyday Experiences

Kevin Kajita
Northwest Hospital
Seattle, Washington

Clay Ciolek
MultiCare Health System
Tacoma, Washington

David Bain
Grays Harbor Community Hospital
Aberdeen, Washington

Last year CMS adopted the 2012 NFPA 99 & 101. At this time TJC took the opportunity to review and revamp their process for accreditation survey. This new process was rolled out in January of 2017, leaving healthcare organizations to deal with changes to both new code compliance and the verification process. This presentation will look at what the process looks like now based on the experience of your fellow WSSHE comrades. Will you be ready? Let's find out.
