## PRESS RELEASE – Photos Enclosed

**FOR IMMEDIATE RELEASE – April 17, 2017**

### **North Branch Begins Construction of National Guard Field Maintenance Shop in Hooksett**

(Hooksett, NH) North Branch Construction of Concord has begun land clearing for the construction of a new \$9.9m New Hampshire Army National Guard (NHARNG) Field Maintenance Shop in Hooksett, NH. This facility, located along Route 3, will consist of a 27,200-square-foot field maintenance building and a 2,435-square-foot storage shed. The field maintenance building will include a six-bay garage with overhead crane maintenance capabilities, a drive-through wash bay, a tool storage room, offices, classrooms, and gym and shower facilities. The scope of work also includes site improvements.

This new facility will combine the current NHARNG Manchester and Hillsborough field maintenance shops into one location to support the maintenance and repair of combat and tactical vehicles. The architect for this project is Smith Alvarez Sienkiewycz Architects located in Burlington, VT.
