Mandatory EPA Certification for remodelers working on buildings built before 1978.

Effective April 22, 2010 the United States
Environmental Protection Agency's Lead-
Based Paint Renovation, Repair & Painting
Program Rule (40 CFR Part 745) requires:
1) workers to be trained to use Lead-Safe
work practices and,
2) renovation firms to be EPA-certified.

LEAD RRP **EPA CERTIFIED TRAINING**

Training Topics Covered:

- On-site assessment & field testing
- Work area containments
- Cleaning practices
- Inspections
- Proper recordkeeping.

The federally-regulated requirements are mandatory
and potential penalties are substantial. The general rule
addresses remodeling and renovation projects disturbing
lead-based paint in housing and/or child occupied facilities
built before 1978. Activities include, but are not limited to,
repair, maintenance, electrical, plumbing, painting,
carpentry and window replacement.

This course is approved for purposes of certification under
Section 420 of TSCA for the initial Renovator Course
(English). Each attendee will receive a certificate
demonstrating their successful completion.

INSTRUCTOR: Dennis Francoeur of ABC Member firm
RPF Environmental, Northwood, NH. RPF Environmental is
the leading CONES (Consortium of New England States)
and EPA (Environmental Protection Agency) approved
training provider in northern New England.

Concord programs are held at the ABC Education Center. See reverse for directions.
Confirmations will be sent within one week prior to the program start date.
