

# RUN STRONG

Genuine Doosan filters, fluids and batteries help your machine run stronger, longer.

Run strong, longer.

**DOOSAN** 

# MAXIMIZE PRODUCTIVITY WITH QUALITY DOOSAN FILTERS, FLUIDS AND BATTERIES

Our service team is here to help keep your equipment running strong on jobsites until the job is done.

When scheduling your preventive maintenance appointment ask for Doosan® parts. We stock a variety of parts to meet off-road heavy-duty equipment — including **80W-90 brake oil** and **driveline fluid** which help minimize brake chatter and wheel hop that can occur when formulas not specifically designed for this application are used. Other quality lubricants and oils are also available:

- **10W-30 Synthetic Blend**
- **15W-40 Engine Oil**
- **Premium All-Season Hydraulic Oil**

## *Stay strong. Be productive.*

*Call today to schedule a preventive maintenance check.*
