

Window Genie Opens in Henderson

Brad Stegman opened the home service franchise serving east Las Vegas including Henderson

Window Genie is a national home service franchise specializing in residential and light commercial window cleaning, window tinting, security film, pressure washing, gutter cleaning and more. Window Genie will serve the Henderson and east Las Vegas areas.

Before purchasing a Window Genie franchise, Stegman spent 21 years in the casino and gaming industry. Looking to move onto something more family friendly, that would give him a better work-life balance, Stegman sought the help of a franchise consultant. Together they were able to determine what his strengths, weaknesses, goals and interests were. Stegman says the lifestyle aspect of owning a mobile business such as Window Genie appealed to him because in the casino industry you're working nights, weekends and holidays. He says he hopes there are no windows to clean on Super Bowl Sunday.

Stegman is excited to offer multiple services to his community, improving the look and value of homes and small businesses in the area. Stegman said, "We're excited to get open, start earning customers and continue to build and grow the business." Window Genie officially opened for business on December 5th. Each field technician is fully trained, insured, and has passed a background check. Estimates are always free.
