Dignity Health-St. Rose Dominican’s Siena Campus Awarded Advanced Certification for Total Hip and Total Knee Replacement From The Joint Commission

Henderson, NV – October 19, 2016 – Dignity Health-St. Rose Dominican’s Siena campus today announced it has earned The Joint Commission’s Gold Seal of Approval® for [Advanced Certification for Total Hip and Total Knee Replacement](#). The advanced certification is for Joint Commission-accredited hospitals, critical access hospitals and ambulatory surgery centers seeking to elevate the quality, consistency and safety of their services and patient care. The Siena Campus is one of the largest joint replacement programs in the area, with consumers coming from across the valley and beyond for surgery.

The Siena campus underwent a rigorous onsite review on October 10. Joint Commission experts evaluated compliance with advanced disease-specific care standards and total hip and total knee replacement requirements, including orthopedic consultation, and pre-operative, intraoperative and post-surgical orthopedic surgeon follow-up care.

“Achieving Advanced Total Hip and Total Knee Replacement Certification recognizes St. Rose’s commitment to provide care in a safe and efficient manner for patients,” said Wendi Roberts, executive director, Disease-Specific Care Certification, The Joint Commission. “The advanced certification will help St. Rose better provide coordinated and comprehensive care to patients undergoing a total hip or total knee replacement.”

“St. Rose’s Siena campus is pleased to receive advanced certification from The Joint Commission, the premier health care quality improvement and accrediting body in the nation,” added Brian Brannman, senior vice president of operations, Dignity Health Nevada. “We look forward to improving patient safety and quality of care for the increasing number of patients undergoing total hip or total knee replacement surgery.”

Established in 2016 and awarded for a two-year period, the advanced certification was developed in response to the growing number of patients undergoing a total hip or total knee replacement surgery, as well as the increased focus on clinical evidence-based patient care as it relates to pain management, quality of life issues, functional limitation in mobility and the return to normal daily activities.

The Joint Commission

Founded in 1951, [The Joint Commission](#) seeks to continuously improve health care for the public, in collaboration with other stakeholders, by evaluating health care organizations and inspiring them to excel in providing safe and effective care of the highest quality and value. The Joint Commission accredits and certifies nearly 21,000 health care organizations and programs in the United States. An independent, nonprofit organization, The Joint Commission is the nation’s oldest and largest standards-setting and accrediting body in health care. About Dignity Health-St. Rose Dominican

As the community’s only not-for-profit, religiously sponsored health system, Dignity Health-St. Rose Dominican has been guided by the vision and core values of the Adrian Dominican Sisters for more than 65 years. As the Henderson and Las Vegas communities grow, the three St. Rose Dominican hospitals (the Rose de Lima, Siena and San Martín Campuses) and more than 3,400 employees will continue the Sisters’ mission of serving people in need. St. Rose Dominican is a member of the 21-state Dignity Health network of nearly 11,000 physicians, 56,000 employees, and more than 300 care centers, including hospitals, urgent and occupational care, imaging centers, home health, and primary care clinics.
