What an exciting year 2016 has been at Forrest Burdette! The excitement is something about which we all can cheer. After a ceremonial Ground Breaking in May, construction finally began in July on the \$3.4 million addition of the middle-school size gymnasium, 13 new classrooms, new secure entrance for COM, an elevator, and needed kitchen renovations. Each day I see additional steel and block work. I appreciate Foreman Thomas Copley and the work crew who have been faithful to work in the cold weather.

You have also been faithful. To date, over \$525,000 of the \$1,025,000 pledges has been received. Those who made initial pledges contributed regularly, and some persons who did not make pledges in the fall, 2015, have begun to make contributions. Over 44% of the total construction cost has been received. Money in hand has enabled us to forestall accessing the bank construction loan and paying interest.

I greatly appreciate your patience with the short term limited parking problem. The green vested parking lot greeters before the 11 a.m. service have been a big help. I am grateful to those who have found alternative parking places near the church, thus freeing up spaces in the parking lot for those who arrive later. This will just be a challenge for a while. I am grateful for the construction workers who keep the alley open as much as possible on the weekends.

Like you, I look forward to the completion in the fall. God is in our midst doing great things through you. You can be proud of what your church is accomplishing and the future generations that will be blessed because of your financial commitment and sacrifice for the Kingdom here in Hurricane. That is the promise, and we are seeing the steel and block fruit! You have been “blessed to be a blessing”.

Grace & freedom,

*Ellis*

Part of being fruitful comes by knowing how to bear fruit—the fruit of the Spirit.

**Don Gatewood/The Chapel – Is This the End? by Dr. David Jeremiah** The purpose of this book study is to step back from the trees and take a look at the forest, to swap our daily micro view that we get from the media and take a macroview of what is happening in the world.
