.....

This workshop will focus on positive youth development, adolescent sexual risk behaviors, and the importance of communication between youth and trusted adults. Upon completion of this workshop, teachers will have tools to create a supportive environment in an educational setting to approach topics such as teenage pregnancy, bullying, and inclusivity, and to promote healthy choices ultimately supporting school attendance and participation.

Specific topics covered:

- consent
- healthy relationships
- sexual orientation
- gender identity
- effects of social media on adolescents
- body image
- violence

.....

Safe Spaces is offered through a partnership between North Dakota State University and Planned Parenthood Minnesota, North Dakota, South Dakota. We are committed to providing education that is comprehensive, medically-accurate, and age appropriate. We value health, community, and responsibility.
