

The Quasquicentennial Committee is proud to announce
Community Art Project

The development of La Grange Park has been 125 years in the making. To commemorate the many families that have been instrumental in building our community, a mosaic wall is being commissioned.

These tiles will feature photographs or drawings of your families, past or present. The tiles are made from high-quality ceramic with the finest-quality coating and full-color imaging. Your tiles will be installed in the Village Hall for public display. *(Display samples are available for viewing at Village Hall.)*

The images you choose should celebrate life's special moments, big and small. So don't be afraid to dust off those family albums and submit an image from a different era, along with one from your smart phone.

Complete details regarding available sizes and pricing are on La Grange Park's website <http://www.lagrangepark.org>.

Make your family memories a part of the exciting history and future of La Grange Park.

Submission deadline is April 30th, 2017.

Hurry, submit your order-- there are limited tiles available!
