

AGENDA

Mid-South Forest Futures Project

Texas A&M Forest Service (TFS)

The purpose of this listening session is to understand the issues, concerns, and opportunities landowners, land managers, and resource professionals have regarding natural resource management in Texas. The information received will be used to help focus Texas A&M Forest Service programs that meet the needs of those they serve.

9:30 am Project Overview

10:00 am What do you value about natural resources in this region?

- *What do you value about the land you own, manage, or use?*

10:30 am What changes do you see ahead?

- *What are your concerns about that land now?*
- *What future changes do you see coming that may impact the land?*
Think external sources of change.
- *What impacts might these concerns and changes have on the land and how you choose to care for/manage it?*

11:45 am Working Lunch

What will you need to address potential impacts?

- *What **technical assistance** may be needed and what **questions** may still need to be answered to address these concerns and future changes?*
- *What might you or your organization do in the next year or so to address the potential impact?*

1:00 pm Adjourn
