

# PROJECT FACT SHEET

Downtown Streetscape &  
Route 5 & 20 Corridor Reconfiguration

The City of Geneva was selected in 2016 to receive \$10 million through the Downtown Revitalization Initiative (DRI). The current project, funded by the DRI, includes design and construction of improvements on NYS Route 5&20, Exchange Street and Castle Street, including the 5 Point Intersection. The objective is to provide a suite of attractive, safe and maintainable designs that balance function of movement with sense of place. The outcomes will support a positive, livable and enhanced urban environment in Geneva – achieving the primary goals of the DRI.

## PROJECT MILESTONE SCHEDULE

- Indicates Project Advisory Committee Meeting
- Indicates Public Meeting
