

October 25 - 27, 2016

**Ramada Inn and
Conference Center
State College, PA**

Draft Agenda – September 12, 2016

DEP and PACD have again worked together to make the annual 102-105 meeting worthwhile and informative. Following are a few changes from last year and some things to keep in mind as you plan for the meeting.

1. This is a Draft Agenda. There will be changes and adjustments to the agenda, so be sure to pick up a copy of the Final Agenda when you check in at the Registration Desk at the Conference Center. Session times, locations and presenter information will be provided on the final agenda.
2. Presentation Binders will NOT be distributed this year. Because of the high cost of printing binders and to conserve paper, presentations will only be available in electronic format. Print or download to your devise presentations and handouts for the sessions you will attend. You will be contacted by email when presentations are ready for download.

Because of limited WIFI capacity at the Ramada, please download the presentations to your device prior to the meeting if possible.

3. There are no concurrent tracks this year. Day 1 focuses on Agriculture, Day 2 on Chapter 102 and Day 3 on Chapter 105. When registering, check which days you will attend.
4. New Technician Orientation Sessions are scheduled for each day. These sessions are for technicians with less than two years experience in their current position. Note that all these sessions will be held 1/2 hour before the general sessions begin each morning and will focus on the topic for that day. New technicians should register in the Conference Center lobby before heading to the orientation.
5. DEP staff must list the nights they will be sleeping over at the Ramada Inn on the online registration form. Central office will handle reservations and payments – however, when registering online staff must indicate which nights they need will need lodging.

Thank you
