

*What are the benefits to using school owned devices?*

- Students will all be using the same version of educational apps, programs, or system updates which will continue to advance and improve their learning.
- There will be consistency in security, device management, and storage.
- Apps are loaded by the school.
- Students will have the same restrictions (security) set on their devices.
- Students will have less down time due to continuity in the troubleshooting process.
- No personal downloaded games, pictures, etc. The elimination of gaming will also provide reduced distractions during homework time.
- iPads are sent for repair by the school and are covered under the insurance program. Parents are financially responsible for all additional deductible amounts due.
- Technical issues are addressed at school.
- iPads are used solely as an educational device.
