

SUMMER ENHANCEMENT FOR INCOMING 2ND GRADERS

Listed below are great resources for your child to practice over the summer to be ready to go for 2nd grade success!! The websites for Math should be used to practice fact families for addition and subtraction, 2 digit addition and subtraction, time, money, and any other areas listed for 2nd grade. D'Nealian handwriting should be practiced for every letter to allow for an easier transition to cursive.

Your child will be responsible for writing a book report (see below for access to form) on a non-fiction book, and taking an AR the first week of school on a fiction book. The book choice should be at his/her reading level.

Enjoy your summer, Wendy Patterson and Patty Hughes

Websites to practice 2nd grade skills

Awesome site that covers all subject areas:
