

On Demand Child Care Training

Featured module:

PYD Mastery: Learning Environment and Curriculum.

This mastery module is for current administrators, and those who want to advance into an administrative role, in extended learning programs serving 5- to 18-year-olds. Administrators will explore how to direct their staff to create informal, high-quality learning environments using positive youth development principles. The module will also help program administrators guide and support staff to select and deliver age-appropriate curricula to meet the learning goals established by the program.

Learn to:

- Develop a high-quality, age-appropriate program and supportive learning environment that promotes positive youth development.
- Select activities that engage and promote the development of the whole child (including physical, emotional, social, and cognitive development).
- Identify learning experiences for youth that promote practical life skills, develop curiosity and innovation, and encourage leadership and civic engagement.

Spanish modules available
Eligible for CEUs
Accepted for CDA

Content for this and 200+ other On Demand professional development modules is available at no cost. If a certificate of completion is needed or required, a \$5.00 fee is charged.
