

## Form a habit with reusable bags

Buy one bag to get started. Take it to the grocery store, the drug store, the liquor store. Soon you'll be buying more because reusable bags hold more and they're way stronger than flimsy plastic bags.

People the world over are acquiring reusable bags to cut down on ugly plastic litter, to save land and marine animals from ingesting the bags and getting choked. And don't forget, stores buy the bags and pass the cost on to you.

Let reusable bags become your new habit. They're readily available in most grocery stores, and Greener Bloomfield offers them for free at some events, thanks to the generosity of ShopRite.

How many reusable bags do you have? Brag about your accumulation at [www.facebook.com/greenerbloomfield](https://www.facebook.com/greenerbloomfield). Photos welcome!
