Dr. Gary Small
- 11:15am – 12:00pm ***Patient Relationship Management in Concussion Care***
Dr. Joshua Newman
- 12:00pm – 12:45pm ***The Use of Telemedicine in the Evaluation of Concussion***
Dr. Bert Vargas

Lunch 12:45pm – 2:00pm

Track A: Evaluation and Treatment of Concussion

- 2:00pm – 2:40pm ***Measuring Ocular Motor Function and Concussion Resolution in Sport***
Dr. Derek Tong
- 2:40pm – 3:20pm ***On-field, Sideline, and Office-Based Evaluation of Suspected Concussion: The ATC's and PT's Perspectives***
Ms. Amy Fee
- 3:20pm – 4:00pm ***Headache Management in Postconcussion Syndrome***
Dr. Tad Seifert

Track B: Evolving Technology for Reducing Concussion in Sport

- 2:00pm – 2:40pm ***Detection of Suboptimal Performance Among Retired NFL Players: The Significance of Psychological/Psychiatric Symptomatology***
Dr. Michelle Zeller, Dr. Hayley Kristinsson, Dr. Tony Strickland
- 2:40pm – 3:20pm ***Biomarkers in the Detection and Tracking of Neurological Outcome***
Dr. Barry Jordan
- 3:20pm – 4:00pm ***Telemedicine and the Treatment of Postconcussion Syndrome***
Dr. Paul Longobardi

Track C: Connecting Healthcare with Technology

Moderators: Dr. Milton Chen and Mr. Dan Berger

2:00pm – 4:00pm

Community Coding Bootcamp: This year SCI is exploring innovation in healthcare by combining technology with sports. Fifty students will be selected to participate in our Coding Bootcamp. Dr. Chen and Mr. Berger will guide our coders as they work to create innovative new products that change the way we approach healthcare.

Dr. Chen did his PhD at Stanford University on the human factors and design of video collaboration; Milton was also the co-author of XMPP video standard (XMPP is used by Google Talk and Facebook Chat). Dr. Chen has deployed VSee for Hillary Clinton, Angelina Jolie, Mandy Moore, the band Linkin Park and UN Secretary General Ban Ki-Moon. Dr. Chen has also worked in refugee camps from Syria to South East Asia to Africa.

As a consultant and proposal developer, **Mr. Berger** brings over 30 years of healthcare and biomedical informatics, health plan, public sector, healthcare reimbursement, and behavioral health program administration experience to Optimetra's engagements. He holds a master's degree in Business Administration from Arizona State University.

SCI Town Hall: The Future of Healthcare and Technology in the Management of Concussion

Moderator: Mr. Jim Whitehead

Come join us for refreshments and appetizers as we discuss the future of healthcare in the management of concussion.

Summit Planning Committee

Tony L. Strickland, MS, PhD

CEO, Sports Concussion Institute
Associate Clinical Professor of Neurology, David Geffen School of Medicine at UCLA

Hayley B. Kristinsson, PsyD

Clinical Neuropsychology Postdoctoral Fellow
Sports Concussion Institute

Joe Bernstein

Vice President of Business Operations
Sports Concussion Institute

Milton Chen, PhD

CEO, VSee

Diana Huston

Finance Manager and Controller
Sports Concussion Institute
