

## Serger Class

August 4<sup>th</sup> 12:30--2:30

\$20, Call to register

### Fix a Zipper with your serger!

Have you ever had a broken zipper on a pair of pants or jeans?

What did you do with them? Throw them away is the solution for most people. But not us. Learn how to replace a fly zipper or to make a pair of pants with a fly zipper. I will bring a pattern for you to copy and make a take home sample. Making a sample is the best way to learn a how to lesson. If you have a pair of pants with a broken zipper this is your chance to replace that zipper and wear those pants again.

- Bring to class:
- basic sewing supplies--seam ripper, thread, scissors, pins, etc.
- 1/2 yard of medium weight cotton fabric or pants with broken zipper
- sewing machine
- 7-9" zipper

In two hours or less you will have learned this skill and the possibility of saving a lot of money. Take care see you August 4th. Lana
