

MILTON HIGH SCHOOL
SCHOOL GOVERNANCE COUNCIL
2 YEAR PARENT CANDIDATE

REGINA WAHAB

Hello, my name is Regina Wahab. I have a son who attends Milton High School and a daughter who attends Emory. I'm excited about using my experiences as a parent and as a CPA in helping MHS continue to be a school that serves its students in the most productive and balanced manner. I have worked as an executive communications director for some of the world's largest CPA organizations and I hope to put my negotiation, collaboration and communication skills to work for the betterment of the school and its students.

I'm passionate about strong academic success that is not only accessible to all but that is also **BALANCED** so that we not only have high-achieving students but students who are **HAPPY** and emotionally intelligent.

Also on my agenda is helping to make MHS more community-focused and its student body more cohesive. To do this, I'd like to focus on social programs and activities as well as team-building exercises that promote compassion and kindness. Bullying at any school is a devastating issue requiring proactive champions for change. I believe those champions of change must be the students. Accordingly, 7 years ago, I helped our older daughter who is now a senior at Emory University to form an anti-bullying non-profit organization called Smart with Heart. I hope to use my experiences from Smart with Heart at MHS. We have wonderful teachers and administrators at Milton and I hope to bolster Milton's continued efforts towards a happy and successful student body.
