Whether you're a beginning gardener or a long-time green thumb, you'll find inspiration and information as we explore earth-friendly ways to improve and preserve the beauty, health, and habitat of our town – one backyard at a time!

Keynote Speakers:

- * **Dr. Doug Tallamy**, author of the book *Bringing Nature Home*, on planting native plants in your home garden
- * **Chip Osborne** of Osborne Organics on organic care for your lawn without harmful pesticides

How-to Workshops:

- * **Backyard composting**, with Ann McGovern, EPA
- * **Gardening with ornamental edibles**, with Home Harvest Edible Landscape & Construction
- * **Attracting honey bees and pollinators**, with beekeepers from The Best Bees Company

Also featured: Soil analysis how-to table with **Cricket Vlass**, Landscape Planner, Wellesley DPW; "The Art of Nature" art exhibit featuring 17 local artists, presented by **Wellesley Women Artisans**; and rain barrels to order.
