

A Surprising Possibility

A couple of days ago, one of our major donors walked into our office to drop off his annual donation. He brings his generous cheque along with a card. On the front it said, "Thank You." Somewhat puzzled, we open it up and read.

"Truly pleased we can participate in the great work you do and services you provide. God Bless You."

It made us pause for a moment in our busy day and smile. We couldn't believe that someone would take the time to thank us as they bring in a donation. It was totally unexpected and made us think again of just how amazing our community is. The generosity shown to all non-profits, the thousands of volunteer hours and the belief that we are all trying to make our community a better place to live.

This is why we continue the work of United Way. We can only do it with your support. This thank you card was meant for you too.

Together, we are possibility.
