### ❤️ The 9 Love Languages of the Enneagram ❤️

February is the month of love. How do you show your love? How do you like others to show their love to you? You might have heard of the book, "The Five Love Languages" by Gary Chapman. In our February meetup we will explore the Nine Love Languages of the Enneagram Types. Knowing your style and communicating it to your loved ones can greatly enhance your relationships – whether they are romantic, family or friend. Join us for this fun, practical and interactive meetup!
