

First Unitarian Church Environmental Task Force and The Pachamama Alliance present an introduction to:

PROJECT DRAWDOWN

Is it already too late to save the planet from massive global warming? If not, what are the most important projects we should be working on?

Luckily, Paul Hawken has assembled a large team of scientists worldwide to identify, research, and model the 100 most substantive, existing solutions to address climate change. What was uncovered is a path forward that can roll back global warming within thirty years.

Come see a video where Paul Hawken explains Project DrawDown and some of the solutions they found.

When: Sunday, October 15, 2017 6:30 PM

Where: First Unitarian Church, 220 Winton Rd S, 14610

Come and bring a friend to this free, open presentation that may just inspire you to toss your pessimism and dig in to work on something to keep the planet habitable for future generations- there are a wide variety of projects so you can find one that appeals to you. You may then want to read the book, *Drawdown: The Most Comprehensive Plan Ever Proposed to Reverse Global Warming*, Paul Hawken Editor, for more details.
