NDRC 2018 Call for Presentations to Open January 16

If you have expertise in the latest science, policy, and practices that drive more resilient buildings and create disaster-resilient communities in the face of natural and human-caused disasters, FLASH invites you to submit a presentation for the [2018 National Disaster Resilience Conference](#) (NDRC) November 7-9 in Clearwater Beach, FL.

[Registration](#) is now open, and [sponsorship opportunities](#) are now available to spotlight your business and allow you to network with leaders in the disaster safety and resilience movement. Conference attendees will include design professionals, emergency managers, financial services experts, futurists, housing experts, insurers, journalists, meteorologists, product manufacturers, risk communicators, scientists, social psychologists, and many others.

Design topics will include best practices for resilience in the workplace; building resilient homes; building with new and emerging products, techniques, and technologies; communication techniques to drive resilience; measuring resilience; the economic case for code-plus construction; focus on resilience around the globe; the U.S. building code landscape; innovating resilience through research and science; the latest in resilience; and lessons learned from 2017 disasters.

Visit www.nationaldisasterresilienceconference.org for more information.
