

## Illuminated MR Module Cover for LP/NH3 Applications

### Application

Optional Illuminated MR module cover is available for retrofit on existing 4" Magnetel® RoughRider® R3D® Silver/Black or Fluorescent Dials. The illuminated MR module cover provides a clear and bright view of the dial in dark conditions.

### General Information & Features

#### Illuminated MR Module Cover Features:

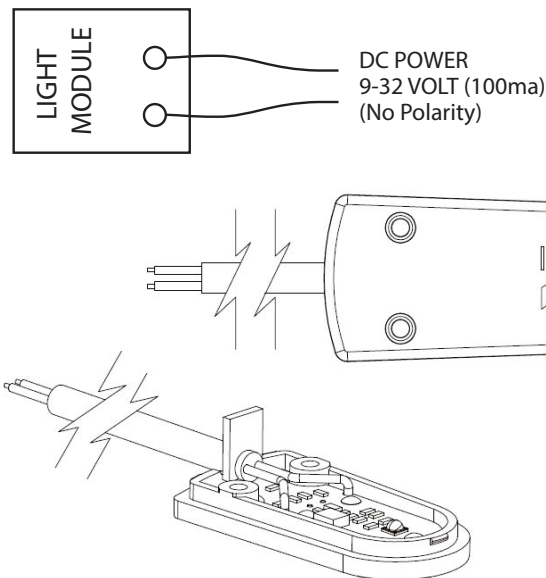

- Designed for installation on existing 4" Magnetel® RoughRider® R3D® Silver/Black or Fluorescent Remote Ready Dials.
- Illuminates dial providing clear and easy viewing in dark conditions.
- Easily retrofits on existing dials by replacing existing module cover with new Lighted MR Module Cover. [Required power supply voltage — 9-32 volts (100ma)]
- Does not interfere with installation of Magneto-Resistive (MR) module for remote reading.

### Ordering Information

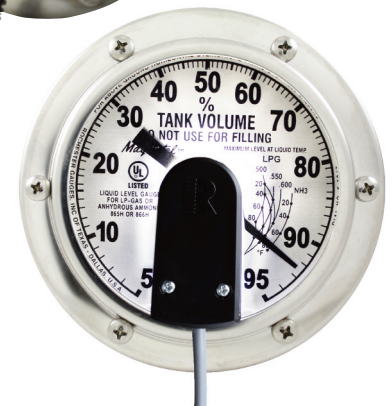

Part #	Description
0023S00031	Illuminated MR module cover for 4" R <sup>3</sup> D® fluorescent dials
5APKS03045	4" Magnetel R <sup>3</sup> D® fluorescent LP/NH <sub>3</sub> dial 5-95% dial graduations
0023S00033	Illuminated MR module cover for 4" R <sup>3</sup> D® silver background dials
5ANTS03047	4" Magnetel R <sup>3</sup> D® silver/black LP/NH <sub>3</sub> dial 5-95% dial graduations
M6300	Magnetel RoughRider Gauge (See Data Sheet M6300 for ordering information)
