Iceland is an otherworldly place where forces of nature have created a landscape that allows you to swim in geothermal heated pools, trek across a mossy lava filed, or drive over an icy glacier all in one day. You will be enchanted by the striking and raw beauty of this extraordinary and geologically young island. The local cultural life is equally rich, from medieval sagas to contemporary novels. The effortless style of the local people is simply mesmerizing, as is their friendly and self-reliant spirit.
