

# Community Health Needs Assessment

*You can influence the health  
of our community!*

In September, you may receive a letter inviting you to participate in a health survey. Your answers are important.

**If you are randomly selected, please complete the survey!**

Telephone and online options are available.

Your confidential answers will guide Tahoe Forest Health System and Incline Village Community Hospital in health improvement planning.

Survey is available in both English and Spanish.

*Questions?*
