

JOB OPENINGS: ASSOCIATE AND SENIOR-LEVEL TRANSPORTATION ENGINEERS AND TRANSPORTATION PLANNERS

CHS Consulting Group, with offices in San Francisco, Oakland, San Jose, Santa Rosa, and Los Angeles, is looking for several exceptional Transportation Engineers and Planners to join its talented pool of staff. We have immediate openings in our various offices for staffing many very exciting ongoing and upcoming multi-year projects, including the first segment of the California High Speed Rail Project; State Route 85 Transit Guideway Alternatives Study; San Francisco International and San Jose Mineta Airport projects; *ACEforward* regional rail enhancements; municipal traffic signal design, operations, and safety projects; Transportation Impact Studies for major San Francisco developments; and multimodal corridor preliminary engineering and environmental projects.

Engineer Positions

Senior Transportation Engineer – Candidates should have a minimum of 10 years of professional engineering experience, with a track record in managing traffic engineering design projects, including traffic signal design and systems, traffic operations and simulation, and ITS design; as well as the ability to mentor junior staff. Preferred candidates must be a registered P.E. in the State of California or have the ability to obtain registration within six months of hire. Additional registration (either a California T.E. or certification as a PTOE) is preferred. Candidates should be proficient in AutoCAD or MicroStation, have proven project management skills, and have strong written and verbal communication skills.

Associate Transportation Engineer – Candidates should have a minimum of 5 years of professional transportation engineering design experience. Candidates should have experience in performing transportation engineering analyses and design, including traffic engineering, traffic operations and simulation, signal design and systems, and ITS design. Candidates must be proficient in AutoCAD or MicroStation and have hands-on experience with traffic operations software (HCS, SYNCHRO, CORSIM, and VISSIM). Registration as a P.E. in the State of California or the ability to obtain registration within six months of hire is preferred. Additional registration (either a California T.E. or certification as a PTOE) is preferred. Candidates should have strong written and verbal communication skills.

Planner Positions

Senior Transportation Planner – Candidates should have a minimum of 10 years of professional experience, with a track record in managing preparation of circulation sections of General Plans, Specific Plans, and CEQA/NEPA documents; and traffic studies for various types of Caltrans projects. Candidates should have demonstrated ability to mentor junior staff. Preferred candidates should have professional registration either as a P.E. in the State of California or AICP, or have the ability to obtain registration within six months of hire. California T.E., PTP, or PTOE certifications are also preferred. Candidates should have excellent written and verbal communication skills.

Associate Transportation Planner – Candidates should have a minimum of 5 years of professional experience, with demonstrated, hands-on experience performing transportation technical analyses for multi-modal transportation corridor projects, General Plan and Specific Plan circulation studies, and CEQA/NEPA documents. Registration as California P.E., AICP, California T.E., PTP, or PTOE certification is preferred. Candidates should have excellent written and verbal communication skills.

CHS offers excellent salary and benefits. Additional information is available at <http://www.chsconsulting.net>.

Interested candidates should send their resumes and cover letters to Ms. Millicent Williams, CHS Consulting Group, 220 Montgomery Street, Suite 346, San Francisco, CA 94104 or by email to mlwilliams@chsconsulting.net. EOE.
