DOT.MONEY – May, 2018 Update of Cryptosphere

▶ **Blockchain Technology**

- ▶ Expanding Rapidly
- ▶ Next Gen Here. BTC and ETH are Gen 1, HashGraph, XLM (Stellar), EOS, NEO are Gen 2
- ▶ However, ETH is going to be putting out Sharding and other upgdades to speed up the network and confirmations.
- ▶ Off-chain support reconciles with on-chain at a later time

DOT.MONEY – May, 2018 Update of Cryptosphere

▶ **More ICO's**

- ▶ 46% of ICO's last year had no MVP
- ▶ ICO's are *usually* limited to about 25-30MM now
- ▶ SEC has said 98% of ICO's to-date are securities. Regardless of SAFT's
- ▶ Attorney's who advised/underwrote are trying to defend their positions
- ▶ Malta, Gibraltar, and Switzerland best places other than USA (if done right)
- ▶ Question: If Facebook has a token (they just announced) or Amazon, would you consider that a currency or a security when purchasing items with it?
