

Christmas Tree Recycling & Chipping

**Saturday, January 6 9am - 3pm
and
Sunday, January 7 9am - 12pm**

This CSD/Waste Connections sponsored free event will take place at the Community Park. Cash donations will be accepted and used towards the EDH Promise Foundation Community Assisting with Recreation Experiences (C.A.R.E.) program for residents who need assistance with recreation program fees.

To prepare: remove everything from the tree including all ornaments, lights, ornament holders, nails and stand.
Trees that are “flocked” are not eligible for chipping.

Discarded wreaths, garland, and greenery with metal, plastic, wire, lights, or ornamentation are not considered green waste.
Place them in your trash cart.

Residents have a choice of:

- Bringing their own trees to the Community Park either day
- Utilizing Boy Scout curbside tree collection fundraiser offered on Saturday only
- Cutting the tree into small pieces to place in the green waste cart (making sure it's not so packed in that it will get stuck in the cart when being emptied) for green waste collection week
- Taking trees to the Recycling Center at 4421 Latrobe Road
- Taking trees to the Material Recovery Facility in Diamond Springs
