

The Mission of Special Olympics:

To provide year-round sports training and athletic competition in a variety of Olympic-type sports for children and adults with intellectual disabilities, giving them continuing opportunities to develop physical fitness, demonstrate courage, experience joy and participation in the sharing of gifts, skills and friendship with their families, other Special Olympic athletes and the community.

Athletes Oath:

"Let me win. But if I cannot win, let me be brave in the attempt."

Roman gladiators spoke these words as they entered the arena. Facing the greatest battle of their lives. Our athletes recite the oath at the Opening ceremonies of each competition to remind everyone, including themselves, that they are part of a brave tradition and that the goal is to complete with their whole effort and to exhibit bravery by pushing themselves to ever greater heights.

Coaches Oath:

"In the name of all coaches, we shall follow written and verbal instructions of Special Olympics officials at all times, have our athletes at the appropriate events and activities at the proper time and abide by the rules and policies. In the spirit of sportsmanship."

Officials Oath:

"In the name of all judges and officials, I promise that we shall officiate in these Special Olympics Games with complete impartiality, respecting and abiding by the rules which govern them, in the spirits of sportsmanship."

CLASS SPECIFIC INFORMATION

1. English Equitation and Stock Seat Equitation

Athletes will be judged on seat, hands, and ability to control and show the horse. Athletes will be judged at the walk, posting trot/jog canter, and reverse as deemed by their Division.

Results as shown by the performance of the horse are not to be considered more important than the method used by the athlete.

2. Working Trails

Athletes will ride the course individually as time allows.

An obstacle course will be made up of obstacles in a prescribed pattern.

Athletes will be judged on their ability to guide the horse through a designated course.

Athletes will be penalized if their support person is seen/heard giving instructions or making decisions for the athlete.

If a horse takes an excessive amount of time at an obstacle, the judge is encouraged to advance that horse to the next obstacle.

Off course is defined as:

Taking an obstacle in the wrong direction or from the wrong side.

Taking an obstacle in a manner other than described in the pattern.

Skipping an obstacle, unless directed by the judge.

Negotiating obstacles in the wrong sequence.

Failure of the rider to attempt an obstacle.

3. Showmanship at Halter/Bridle Classes

The emphasis is on the athlete's ability to handle and show the horse safely in a prescribed pattern.

Judging is based on the appearance of the horse, condition and thriftiness, grooming, tack, appearance of exhibitor, Poise, Alertness and Merit.

4. Barrel Racing

Barrels should be set up in a triangular configuration approximately 40 feet apart with the start/finish line designated by two cones set in between and a few feet in front of the first 2 barrels.

The rider will run barrel number 1, pass to the left of it and approximately 360 degree turn.

The rider will go to barrel number 2, pass to the right of it and complete a slightly more than 360 degree turn around it.

The rider will then go to barrel number 3, pass to the right of it and do another 360 degree turn.

The rider will then sprint to the finish line, passing between barrels 1 and 2. Time will be stopped when the horse's nose crosses the start/finish line.

5. Unified Team Relays

Teams will have 1 Special Olympic athlete and 1 Partner.
Both athletes will ride at the same Division Level.
Two teams may compete at the same time.
Each athlete will begin at opposite ends of the arena.
The clock is started on the "go" command of the official race starter.
The clock is stopped when the nose of each team's last mount crosses the finish line.

Two people (driver and assistant reins-man) must be in the carriage for all classes.

Two sets of reins shall be used in all classes

Unassisted Classes ~ as a back-up in the event the driver loses control of the horse.
