

Matisse, Monet and Me™ introduces art history to children and encourages creative expression through the inspiration of an artist or culture. Our curriculum follows the Montessori art philosophy of “process vs. product”. A new artist or culture is studied once a week until completion of our 3-year curriculum cycle. Primary students (3-6 year olds) are introduced to historical art ideas and learn how to manipulate various art media while developing their “pincher grip” needed for writing. Elementary students review artists in greater detail, experiment with various art media, fine-tune their motor skills and build on their eye/hand coordination.
