WHAT WEATHERIZATION INCLUDES

Each home is different so different measures are prescribed based on a multitude of factors. Weatherization work can (but may not always) include:

- A housing inspector will visit your home to provide a preliminary inspection. At this time, state-approved software is used to determine weatherization measures to be completed.
- Existing heating units receive maintenance/repair. Replacement may occur under some circumstances.
- Glass is replaced on windows in which the glass has been broken or cracked. Caulking and/or weather-stripping of doors will be done as needed. Insulation of hot water pipes, heat ducts, and water heater may be done as well.
- Attic ventilation, and other carpentry measures designed to make the house more energy efficient.
- Wall and attic insulation will be considered. It will depend on the condition of the wiring and the roof, the amount of existing insulation, and the type of wall construction and siding.
- Gable, roof, or soffit vents will be installed as required.
- Finally, a final inspection will be conducted by a housing inspector to determine if all of the work has been finished and work has been completed in a professional manner.

Once SCKEDD has received your application and verified your income to determine eligibility, you are placed on a waiting list to receive a preliminary inspection. When it is your turn, an inspector will contact you to set up a time for your inspection. The inspector will visit your home to gather the necessary information which must be entered into a computer program approved by the U.S. Department of Energy and the State of Kansas. This program provides SCKEDD with a list of approved measures designed to reduce the energy consumption of your home. Each house is inspected in a similar manner and input in the audit software in a similar manner. However, due to the inherent differences in each building structure, the energy audit software may approve different measures for each house. After inspection, an appointment is then set for a SCKEDD weatherization crew to arrive to perform the work that has been approved for your home. Before any work is started, the crew supervisor will go over the list of work items with the homeowner. If there are no objections, the crew will proceed with the work. In cases where the homeowner objects to having any work item performed, the crew supervisor will contact the project inspector to discuss the objection before any work is started. If the housing inspector determines that the item objected is required for your health and safety then we will be unable to do any of the items.

The services provided to you through the Kansas Weatherization Assistance Program provided by SCKEDD are intended solely to reduce the energy consumption needs of your household. SCKEDD receives a limited amount of money and the Weatherization program regulations and guidelines limit the use of grant funds to specific approved measures which have been shown to reduce energy consumption. The work is performed by SCKEDD staff or subcontractors who have received extensive training and experience in specific weatherization techniques. Please be advised that all weatherization work items are not intended to enhance or improve the appearance of the home. If my application is approved, I authorize the weatherization of my home to be completed by this program and will provide reasonable access to my property as required by weatherization personnel. If I disallow reasonable access to my home I understand that my application will be deferred and any and all warranties on work items already performed will be void.

By signing below, I certify that I have read all information contained in this application and understand my rights and responsibilities as a client under the Kansas Weatherization Assistance Program. I also certify that the information given by me in this application is a true and accurate representation to the best of my knowledge. By signing this application, I understand that I may be civilly and/or criminally liable under Federal and State law for making any false or fraudulent representations. I also understand that any person that applies for the Kansas Weatherization Assistance Program has the right to appeal any denial, delay or limitation of service under the grant program. Property Owner/Rental Property Agreement

If you are a renter, rent-to own, or are buying on contract give this form to your landlord to complete. If you own your home, omit the Rental Section.

I, _____ do hereby declare that I am the legal owner of the dwelling located at _____ in _____ Kansas, and that this dwelling is occupied by _____ (tenant name). I understand that my ownership of this property will be verified through a review of public records within the county Register of Deeds office.

I grant the Kansas Weatherization Assistance Program (KWAP) permission to weatherize the dwelling at the aforementioned address and to do whatever reasonable repairs are deemed necessary within guidelines set forth by the U.S. Department of Energy. I further declare that I shall forever save and hold the KWAP, its agents, servants and employees harmless from all claims, dividends, costs, and liabilities arising from damage or injury, actual or claimed, of whatever kind or character, to persons or property, occurring or claimed in, on or about the premises arising out of the service provided and shall defend the KWAP in any action or proceeding brought about.

I understand that the KWAP is entitled to all salvageable materials that are replaced with new weatherization materials.

Rental Properties:

In return for weatherization of the aforementioned residence, I, as owner, agree to and understand the following:

1. I understand that the KWAP will assess the heating system. If found unsafe or inefficient, I may be required to contribute costs of materials and labor for repairs or replacements in excess of the first \$250. I understand I will be contacted about any contribution and that weatherization services may be halted unless or until an agreement is made.
2. I will not raise the rent on this property because of any improvements made by SCKEDD for a period of one (1) year following completion of the weatherization work. I have the right to increase the rent an appropriate sum if I do additional repairs at my own expense unrelated to Weatherization work. Furthermore, I do not intend to sell the property for a period of one (1) year. Should I sell the property within 1 year, I will ensure the new owner agrees to the restrictions/requirements of this agreement. I also will not evict the tenant because of any improvements made by the KWAP. I retain the right to evict the tenant on matters demonstrably not Weatherization related. The Legal Aid Society is responsible for arbitrating landlord—tenant disagreements arising from weatherization activities. Contact Kansas Legal Services statewide hotline at 1-800-383-0217 to locate the nearest Legal Aid Office.
3. I will be required to allow the weatherization work to be continued if the client moves from the dwelling before the work scope has been completed. Access to the unit will be made available as needed to all weatherization staff, inspectors, contractors and crews to allow for completion of the work. Work planned or not yet started may be terminated if the tenant moves or the house is sold.
4. The KWAP may notify the appropriate utility company in addition to the tenant and myself if it discovers any physical condition which is believed to pose a threat to the safety of the tenant.
5. The benefits of the KWAP are to accrue primarily to the low income tenants residing in the unit. No undue or excessive enhancements will occur to increase the value of the unit.
6. I hereby GRANT A WAIVER OF LIABILITY to the KWAP and its agents, from any and all claims against the Weatherization Program arising from its presence on said property.

All Properties: Check and initial one of the following:

- I give permission for holes, approximately 2" wide, to be drilled in any or all walls, floors or ceilings for the installation of insulation materials, and understand that it will be my responsibility to apply the desired finish to the plugs used to seal the holes.
- I do not give permission for holes, approximately 2" wide, to be drilled in any walls, floors or ceilings for the installation of insulation materials, and understand that, as a result, insulation will not be provided.
