

Summer 2017 with Wayland Recreation

Since 2009, Wicked Cool for Kids has worked with Wayland Recreation to provide amazing kids' programs that blend STEAM (science, technology, engineering, art, and math) education goals with the kind of fun that kids need on summer break. We champion a great mix of focused lessons and structured play that maintain academic integrity within a creative environment. We're wicked excited to be back in Wayland in 2017!

Program Details

Location

- ★ Wayland Art Center

Minecraft Mania

- ★ July 3 - July 7, no class July 4
- ★ 9am - 3pm, \$289
- ★ grades 1-5 in fall 2017

Program Descriptions

Minecraft Mania

Minecraft Mania is a blend of virtual learning and companion hands-on activities that explore science and engineering using Minecraft. Use an interactive avatar to investigate a game-based educational environment. Engage in both computer and real world activities covering geology, engineering, physics, and biology. Learn about the properties of rocks and minerals and take home your own rock collection. Use your skills to build skyscrapers and simple machines and plant our own crops in enjoyable experiential challenges.

Maker Shaker

Workshop

NEW! Get shakin' with the maker movement. This DIY-based workshop lets you complete challenging building kits and repurpose items using the engineering and design process to dream up something new, useful, fabulous, or just plain fun. Create a motorized squiggly pen and a toothbrush robot. Be an expert maker and design something amazing that you create using Wicked Cool supplies.

Wicked Cool Vet School

Do you dream of becoming a veterinarian? Grab your lab coat, animal lovers, as we learn about our favorite furry, flying and fishy friends! Make amazing animal models, build big bones, and investigate animal intestines from our favorite vertebrates: birds, mammals, reptiles, amphibians, and fish. End the week with a featured visit with a live animal.
