

# Pleasantdale School District 107 Preschool Screening

## March 13, 2018

Screening by appointment only  
To register call (708) 246-4700

The Preschool Screenings will be held at  
Pleasantdale Elementary School  
8100 School St., LaGrange

The screening is free to families who live in the district to determine if a child is developing within expected limits for his or her age group. The screening is for children between the ages of 36 months to 60 months of age. The screening takes about 90 minutes and includes the following areas: fine and gross motor skills, vision, hearing, social emotional, and speech and language skills. This screening identifies whether a further evaluation is needed to determine if the child is eligible for an early intervention program or other special education services. Concerns regarding the development of an infant or toddler, birth to 36 months of age, may be directed to Child and Family Connections at 1-888-566-8228.

If your child is currently enrolled in our Bright Beginnings Program, there is no need to attend this screening.
