ADVISORY CONCERNING ADMINISTRATION OF THE WRITTEN KNOWLEDGE TEST

There have been recent incidents at secondary schools in which students have taken photos of the written knowledge test (written test) and/or the written knowledge test answer key. This has been done through use of cell phone cameras and then shared with other students.

The Motor Vehicle Commission (MVC) is in the process of creating replacement test CDs and will distribute them as soon as possible. In the interim, you may continue using the current tests.

Driving instructors administering the written test are reminded to ensure that copies of the test or answer key are never left unattended. It is recommended that the use of notes, cell phones and other electronic devices during testing be prohibited. We also ask that you pay close attention to noticeable increases in scores; consistent 90, 95 or 100% scores from class to class may be a sign of concern.

Instructors who administer the written knowledge test must hold a valid driving school instructor's license as defined under N.J.S.A.39:12-2 et seq. This license can be suspended or revoked for failure to properly protect and secure written test materials.

Thank you for your cooperation in this matter.
