

Overcoming Barriers: Medication, Intervention, and Crisis Response 2019 Conference

Proposed Conference Objectives:

- Recognize the distinction between response strategy behaviors within the developmental disabled population from the presence of a co-occurring disorders (e.g. medical versus psychiatric versus developmental disability versus co-occurring) in order to provide appropriate medical or behavioral intervention.
- Identify and respond appropriately to crisis response situations.
- Discover how various In-Patient Inclusion Models can be effectively adopted in order to meet the treatment needs of individuals with co-occurring disorders.

Who Should Attend:

- Physicians
- Psychiatrists
- Community Medical Residents
- Nurses
- Behavioral Health Providers
- Substance Abuse Providers
- Case Managers/Service Coordinators
