

Lenka Wiles

Senior Manager
RSM US LLP

Summary of Experience

Lenka Wiles is an audit senior manager with over 15 years of public accounting experience. She has expertise in servicing both public and private organizations. Lenka has managed engagements covering a broad spectrum of clients involved in the service industries, as well as manufacturing and distribution. In the public practice, she has managed engagements from the financial statement audit as well as audit of internal controls perspectives.

Lenka's current private company client portfolio includes a multidisciplinary international consulting firm engaged in infrastructure engineering, architecture, environmental science, economic development and planning services. Her current public company client portfolio includes a multistate manufacturer with overseas operations. She is also a resource to other teams related to audits of internal controls and engagements with international operations.

Lenka currently serves as the firm's New York Market International Assurance Leader. In that role, she assists with building and sustaining an international growth culture, placing inbound referrals, and serving as a liaison for global engagement teams. Lenka has also previously been a part of the firm's National Audit and Accounting Facilitation team, where she was involved in leading internal Continuing Professional Education training seminars throughout the country.
