

**Kelly Azevedo Dent
VP NBD/Commercial – Deepwater Gulf of Mexico**

Kelly is currently responsible for commercial activities associated with Shell's deepwater business in the Gulf of Mexico, based in Houston. She leads a team including new business development, management of existing ventures, economics and commercial operations, in total some 50 staff. She has been working for Shell for over 20 years, formerly General Manager for New Business Development in Latin America and other various roles across the upstream oil and gas business based in the U.K, Netherlands and Dubai. In her career with Shell, Kelly has been a key player in driving deals in the M&A space, establishing new oil and gas ventures with governments/resource holders, strategy and governance of Shell's upstream ventures.

Kelly holds a Bachelor of Economics from PUC University in Rio de Janeiro, Brazil and an MBA from Cranfield University in the U.K. Kelly is married with two children.
