

Alexandria Uribe

Alexandria was born in Houston, Texas and had the opportunity to live in multiple countries as the child of an expat family. She graduated from Texas A&M University with a Bachelor's degree in Psychology and Behavioral Neuroscience and continued her education earning a Master's degree in Human Resource Development from the University of Houston. After her studies, she joined WorleyParsons as the Learning and Development Advisor to co-design and execute the Talent Management, Organization Development, Organization Effectiveness and Training Management program for their Southwest Operations. While working at WorleyParsons, Alexandria was approached by their client Chevron. At Chevron, she was responsible for managing the leadership and technical competency development implementation for their Project Resources Company's (PRC) Project Management Academy (PMA) operating enterprise-wide and comprised of 9 Major Capital Project functions in 5 business units globally; Major Capital Projects represent projects \$100 million – \$9 billion dollars and above. Alexandria managed the development, deployment, delivery and maintenance of over 30 instructional-led, web-based and hybrid technical competency courses during her time at there. After Chevron she joined Amec Foster Wheeler in 2015 as the Talent Manager for Oil and Gas in North, Central and South America. During a reorganization, Alexandria transitioned into the Global Head of Talent for the Mining and Minerals business line, responsible for managing the talent strategies and performance across North and South America, Africa, Australia and Europe. Having spent most of her career in Oil and Gas, Alexandria was energized to operate within a new commodity, Mining and Minerals. In late 2017, Amec Foster Wheeler was acquired by Wood Group to form Wood. Wood is now a global leader in the delivery of project, engineering and technical services to energy and industrial markets. Wood operates in more than 60 countries, employing around 55,000 people, with revenues of over \$10 billion. Alexandria now serves as the Global Talent Manager for the Mining, Automation & Controls and Technical & Consulting businesses within the Strategic Technical Solutions business unit. Throughout her career, Alexandria has had the unique opportunity to work for both the service and production side of the oil and gas business and enjoys bringing innovative and effective Talent Management solutions to life in whatever opportunity presents itself. In her spare time, she enjoys time with her family, cooking, traveling and keeping up with her passion of Neuroscience research.
