“Meeting, Tracking and Reporting Compliance”

Vishal Malhotra, EQ2

Cascade CD

This session will allow attendees to understand how a CMMS application designed for Facilities Management in a Hospital environment can help in the automation of regulatory compliance processes, documentation and reporting.

11:00 am – 12:00 pm

“Developing a Capital Asset Program”

John Wood, Mazzetti

Cascade CD

Preserving the professional appearance and safe, efficient operation of your medical facility requires careful, long-term planning. To help your organization anticipate, prioritize, and budget for repair and replacement of essential building components, it is vital to develop a planned “CAPITAL” maintenance” program that prioritizes needs and supports capital budget planning.
