

September 1, 2017

Board of Directors of UMA Interfaith Alliance fully support the DACA program and also wish that the Trump Administration will give full citizenship to children who were brought here in USA by their parents.

Our country is founded on the principles of liberty and justice for all people who are gifted with certain inalienable rights.

Our Mission: United Muslims of America Interfaith Alliance promotes understanding and cooperation among world religions through interfaith dialogue, thereby creating racial and religious harmony and encouraging faith based communities to get involved locally, nationally and globally for the good of all people and help bring healing and spiritual reconstruction.

In God we Trust
