# May Newsletter

## Farmers Project Continues

Our community Helpers project is still continuing to progress with Farmers!

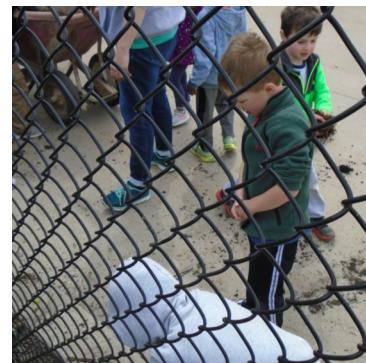

The students are really enjoying learning about the differ-

ent jobs and responsibilities that farmers do and love to hear about all of the various kinds of animals that they take care of. Our Earth Day preparations of our garden boxes was a huge hit for the kids. They

loved getting to mix the soil and plant some flowers out in the playground. They are really excited for

when we get to start planting the vegetable gardens.

## Upcoming Events

We are very excited to have so many different events coming up at Katie's Kids. We know it is hard to keep track of all the dates so feel free to keep asking us about them. Keep a

lookout for more information about SNL and our special Mother's Day event that we are happy to be hosting.

### Water Day Reminders

- > Students must have water shoes to be in the water feature (No Crocs)
- > Swimsuits and towels will be sent home every Friday to be washed
- > Please label all of your items so they are not lost
