

The Future of Integration:

A Policy Discussion on Education and Urban Development

More than fifty years after the landmark case *Brown v. Board of Education*, cities across the nation are experiencing increased segregation and urgent demands for educational equity. The challenge of integration is as significant today as it was in the 1960s. This conference brings educational policy leaders, scholars, and nonprofit leaders working in the field together to provide a wider understanding of how communities can more effectively respond to these issues and consider integration in a contemporary context.

PANELISTS

Rob Breymaier, *Executive Director, Oak Park Regional Housing Center*
