

## SVdP Disaster Services holds P-RAC in San Marco

The five Florida Parish Recovery Centers are in full swing with Vincentian volunteers and Catholic Charities partners. These centers have been strategically placed in hard hit areas where there may be little support to the community that was affected. A total of 22 Vincentians have deployed down to Florida in support of the recovery efforts to the local Councils and Conferences. SVdP Disaster Services is so very grateful for their time, dedication to those suffering and for their Vincentian charism. Please keep the hurricane survivors, the local Vincentians who are providing relief to those in need and to all those who have deployed in your thoughts and prayers.
